

## Accessories

Below is a small selection of the accessories available for the Gas-Pro.

---

### **1m reactive gas tubing AC0301**

1m reactive gas tubing

---

### **Gas-Pro CSE Kit Case AC0610**

Hard shell case including foam insert with space for Q-Test, 34 or 58ltr cylinder, power and comms cable, drop line, Gas-Pro, flow plate, filters, chest harness and straps and instructions – contents not included.

---

### **Gas-Pro Hard shell case AC0600**

Includes custom foam insert with space for standard items – contents not included.

---

### **Sampling tube**

Compatible sampling tube for Gas-Pro. Select length from list and whether standard or low adsorption material for reactive gases. All include tube insert to enable attachment to flow plate.

---

### **Sampling Tube Ball Float Probe AC0512**

Connects to sampling tube to protect from water being drawn up when sampling in potentially problematic locations.

---

### **Tube insert pack AC0500**

Replacement inserts to allow connection of sampling tube to Gas-Pro flow plate. Box of 10.

---

### **Elbow tube insert pack AC0511**

90 degree inserts to reduce protrusion when connecting sampling tube to Gas-Pro flow plate. Box of 10.

**Hand aspirator bulb  
AC0504**

For manual gas sampling. Use with appropriate flow plate and sampling tube.

---

**Water trap and spare filters  
AC0502**

Protects detector sensors and pump from particles and moisture. Includes place of 10 replacement filter elements.

---

**Chest harness plate  
AC0506**

Enables detector to be worn on the chest or over the shoulder. Use with straps AC0507 or AC0508.

---

**Chest harness straps  
AC0507**

Set of 2 straps which in combination with the chest harness plate enable the detector to be worn on the chest.

---

**Shoulder Single strap  
AC0508**

Single straps which in combination with the chest harness plate enable the detector to be worn over the shoulder.

---

**6m Drop line  
AC0509**

6m Drop line to enable pre-entry checks. Includes clip to attach to D-loop on detector.

---

**Gas-Pro un-pumped flow plate  
AC0101**

Replacement flow plate for un-pumped Gas-Pro units.

---

**Gas-Pro Pumped flow plate  
AC0100**

Replacement flow plate for pumped Gas-Pro units.

---

**Multiregion power lead and supply  
CH0100**

**Gas-Pro charger cradle  
CH0105**

Desk or wall mounted cradle for charging Gas-Pro.

---

**USB communications lead  
CH0103**

Enables communication with PC (non charging).

---

**Vehicle charging adapter  
CH0106**

Provides power from 12/24V vehicle outlet sockets. Use with CH0106.
