

Accessories

Below is a small selection of the accessories available for the Gas-Pro IR.

Gas-Pro CSE Kit Case AC0610

Hard shell case including foam insert with space for Q-Test, 34 or 58ltr cylinder, power and comms cable, drop line, Gas-Pro, flow plate, filters, chest harness and straps and instructions – contents not included.

Gas-Pro Hard shell case AC0600

Includes custom foam insert with space for standard items – contents not included.

Sampling tube

Compatible sampling tube for Gas-Pro. Select length from list and whether standard or low adsorption material for reactive gases. All include tube insert to enable attachment to flow plate.

Hand aspirator bulb AC0504

For manual gas sampling. Use with appropriate flow plate and sampling tube.

Chest harness plate AC0506

Enables detector to be worn on the chest or over the shoulder. Use with straps AC0507 or AC0508.

Gas-Pro un-pumped flow plate AC0101

Replacement flow plate for un-pumped Gas-Pro units.

Gas-Pro Pumped flow plate AC0100

Replacement flow plate for pumped Gas-Pro units.

Gas-Pro charger cradle CH0105

Desk or wall mounted cradle for charging Gas-Pro.
